ABOUT MPF

Manchester Punk Festival is a volunteer run, not-for-profit, multi-day and venue DIY punk rock festival held in Manchester City Centre, brought to you by TNSrecords, Anarchistic Undertones and Moving North.

We want to provide an environment where people want to watch bands they've never heard of alongside bands they love, and an environment for bands to play in front of their best friends and complete strangers.

MPF is what happens when you sit three different promoters in a pub to discuss starting something where the bands we know and love can play to new people who would appreciate them exactly the same as those who've supported them this far.

We want everyone to feel comfortable and enjoy themselves at MPF, we take a zero-tolerance approach to any form of discrimination.

Be good to each other, enjoy the festival and thanks so much for being a part of it. As some guy called Joe once said "without people, we're nothing."

HOW IT WORKS

BANDS

Last year we were very proud of the line-up but we think we've just about topped it this year. We're excited to introduce a whole bunch of new bands to Manchester, while inviting back some favourites from the first ever MPF in 2015. Each band is of equal importance to us and every band playing this weekend is worth your time. If you find yourself with a gap in your schedule, just take a chance and go and find someone to watch, there's a ridiculous amount of talent over these three days and you might find your new favourite band. For a breakdown of all the bands playing MPF flick to the Bands section.

VENUES

The weekend will have over 60 bands playing across 5 venues in Manchester City Centre. All these venues support local, independent bands and promoters and we're very happy to be teaming up with all of them over the course of the weekend so please show them the utmost respect. Bring your ID and say thanks to the door staff as they're going through the same weekend as you, but without the bands and beers.

BIRD ATTACK RECORDS

Throughout the weekend you may notice some cameras moving around the place, filming the bands and maybe even you. This will be the wonderful people at Bird Attack Records.

We are incredibly honoured to have the crew flying over from Florida to film and live-stream the entire festival. It's a huge deal for us! Garrett and his team are a big part of the scene that we love and over the last few years have established themselves as a go-to label for new and exciting music from all over the world. Everyone involved in this label perfectly sums up why all of us got involved in this community in the first place.

If your friends missed out on tickets, text them now and let them know they can livestream the whole event from the link on the Bird Attack Records Facebook page.

We'd also like to say thanks to Rockers England, *Oldham St*, *MCR*, All Ages Records, *Camden*, *LDN* and Punk 'n' Disorderly, *Chorlton*, *MCR* for supporting MPF by selling the tickets in their stores. You really should check them all out.
